

What's wrong with this picture?

Florida is a unique place, with both freshwater and saltwater environments. We depend on our coastal waters for recreation (such as fishing, boating, swimming and surfing) and for economic reasons (such as commercial fishing and eco tours). Wildlife who live in coastal waterways depend on them for nursery areas and food. We can all help make this a brighter picture by doing our part to protect Florida's waterways.

Find the following words in the puzzle: Words may be found across, up, down or diagonally, but will always be found in a straight line. The first word has been circled for you.

- ~~crab~~
- otter
- dolphin
- pelican
- lagoon
- seagrass
- manatee
- seagull
- mangrove
- snook
- osprey
- turtle

To learn more about Florida's coastal waters and other water-related topics, join The Great Water Odyssey at www.sjrwmd.com.

Pete the Pelican is having a hard time. Can you help him get to his fish dinner? Draw a line from the arrow to the fish in the center. But be careful! Don't draw through any of the trash or other dangerous items.

Connect the dots and you will see one of the many creatures that live in the Indian River Lagoon and other Florida salt water environments.

SCRAMBLE

The words below are scrambled. Can you unscramble them?
 (If you get stumped, you can find all the words unscrambled in the word search puzzle at upper left.)

spoyer _____ antenea _____
 lophind _____ clenpia _____

- Answers for front page:**
